

## **Manifestation From Ancient Knowing for the Benefit of the New Age**

Disengage the linear mind from problem solving. (No more hurry-worry.) The linear mind's innate nature is fear. Fear is the Guardian at the Gate of consciousness, busily reflecting back to us our particular beliefs about, and resistances to, all the Juicy Good Stuff of Life.

### **Steps to Perfect Manifestation Directly From the Source Self**

- Determine a True Desire being generated from within the Self.
- Write it into life's narrative. This is done during a period of meditative awareness while writing in longhand a segment of desired life experience. The writing also effortlessly engages active imagination and visualization.
- While writing and visualizing, allow the Desire for this experience to flow strongly. Embrace the Desire and feel it deeply.
- Doing so creates a vortex of electro-magnetic energy customized for this Desire. It opens and magnetizes psychic space for this very specific fulfillment.
- Doing the above also creates Expectation that the experience is happening Now and is inevitably being drawn into the space being opened for it to outpicture in the present life.

### **You Get What You Expect**

Notice when the Thing/Person/Experience shows up. Since the manifestation will have arrived in a natural and organic fashion, it is often difficult to notice, as a separate occurrence, that the Desire is being fulfilled.

**The basic actions for manifestation in the physical are these three:**

*Know what you want.*

*Want it.*

*Get out of the way.*

**All Time is Now**

***If It is occurring in your Creative Mind, It is happening Now.***
